WELCOME

Our Diverse Learner Staff would like to welcome you to the new school year. For some of you, this is your first year at Juarez, and we hope your transition so far has been a good one.

We have an exciting year planned for your student. There will be a few outings where they will focus on practical and functional skills. We will keep you posted on events, trips, testing, and anything else that you will need to know to make this year a successful one.

CLASSROOMS

All the students have been easing back into classroom routines and schedules. There have been discussions on appropriate and not appropriate behaviors. Teachers have also been working on current assessments and benchmarks. Some of the main academic goals and focus are on basic number sense, money, letters, sight words, and functional skills to name a few.

PROGRAMS

NEW! to our program, but not to teaching is Mrs. Marlene Putterman. We are excited she has joined the team. She comes with many fresh ideas and years of experience. Please take time to stop by and say hello.

This year we are offering a 'Learning Together' night. This will be head up by Mrs. Perlman once a month. The first night will focus on doing fun fall crafts and learning ways to work with your child at home. It will held on September 18th from 2:30p - 3:30p.

KEY DATES

September Testing & Assessments
Please make sure students are getting rest and are at school on time.

IEP - Meetings
Please keep a lookout in your child’s folder from your teacher about upcoming IEP meetings.
